It's a bad policy to own land which you can't get on your horse and ride to.

If those fellows who are howling for "more land" would go to work tilling some of that now on hand, they would not have time to dictate to the administration.

The proposition to hold the Philippines is very much like into a woman going to a store on "Barren Day" and leading down with things not needed simply because they are cheap.

Those in authority are now directing their attention to the reorganization of the army. The acquisition of new possessions will necessitate an increase to about 100,000 men. Representative Hull, of the House Committee on Military Affairs, proposes to push a bill through when Congress meets, and Senator Hawley will look after it in the Senate.

Some of the dailies are putting forward the name of Dewey for president. As he is a man of fine sense, good education, moral habits, has a contempt for political wire-pulling and less use for politicians, we are for him teeth and toe nail. The greatest blessing which could be given this country would be a chief executive who could not be led by the nose by party bosses and politicians.

When General Lee called on the President when he was in Washington recently, he was accompanied by his son. The President was pleased with the appearance of the young man and appointed him a lieutenant in the regular army. If the younger Lee has the excellent qualifications of his father, the president will never have cause to regret making the appointment. We do not believe a better general than Lee ever wore shoulder straps.

Much speculation is being indulged in as to the final disposition of the Philippines. The people are becoming widely differed on the subject and if a vote were taken "would be hard to foretell the result. While the islands are quite valuable, yet we are firmly convinced that they are a mighty good thing to let alone. Acquisition of far away territory has caused nothing but trouble for every country that ever tried it. Our people have all the territory they want and more than they need.

The G. A. R. will meet in Cincinnati on the 7th of next month, and the generals and colonels who never smelled powder will make sky-scraping speeches, tell how "we" fought and what "we" did. The editor of this paper has taken pains to look up the record of nearly all speakers on such occasions in recent years and finds that if one-third of them were ever in a battle, history fails to record the fact. Those who bear the burden and heat of battle are satisfied to stay at home and "let bygones be bygones."

Ex-Gov. McCreary denies having given out an interview regarding his views on the question of territorial expansion. He however, gives a statement of his position on the Philippine question and other matters. He is in favor of leaving the Philippine matter out of politics entirely, and says that the Democratic party would do well to stand by its platform of 1896 with free silver and the tariff as the paramount issues. Ex-Governor McCreary believes that this country should construct, own and control the Nicaraguan canal.

There is a movement on foot to have the athletes, especially football players, in the volunteer army mustered out of service as early as possible. This ought to be done forthwith, as the long-haired, rattle-brains are losing much valuable time by serving Uncle Sam. The government should keep in service the clerks, lawyers, merchants and farmers and let the football men return to "business." The country will soon go to wreck if these fellows are kept out of playing. Turn 'em out, Mr. Secretary, and keep those in service who have nothing to do but make an honest living. The country must have foot-ball, by all means.

The following is Governor Bradley's views on the annexation of territory as the result of the recent war:

"The acquisition of foreign territory means the formation of a standing army in every country so acquired, and the building of a navy to hold the territory in subjugation. It means taxation, a strongly centralized government and the opportunity, yes, the probability of measuring arms with the combined nations of the world. It means troublesome entanglements and complications. That the hand should be taken from the throat of starving Cubans and a stable government given to the people of Cuba is justified alike by every principle of religion and morals. But when this is done, as it may be by treaty adjustment, all has been accomplished that is necessary and proper."

Speaking of the hanging of the negro, Stephenson, at Stanford last week Editor Walton says: "It is awful to see a human being put to death, but a life for a life should always be the forfeit. If the legal killing of the Negro will stay the bloody carnival in this country, he will not have died in vain."

but we fear his death will have little effect, since but few in the vast crowd seemed to realize the solemnity of the act of taking a person's life, even by the power of the law. Let those who would dye their hands in another's blood pause and think. After a long time the scaffold has been again erected in Lincoln county and from this time on let us hope that every murderer will expiate his crime like Stephenson."

The commissions to arrange for the evacuation of Cuba and Porto Rico have been completed, the Spanish commissioners having been announced. For Cuba, they are for the United States, Maj. Gen. J. F. Wade, Maj. Gen. M. C. Butler and Rear Admiral Sampson. For Spain, Maj. Gen. Ferrado, Rear Admiral Paster and Marquis Montoro. For Porto Rico they are for the United States, Maj. Gen. Jno. Brooke, Rear Admiral Schley, Brig. Gen. W. W. Gordon. For Spain, Maj. Gen. Otero, Commodore Vallarino and Judge Advocate Sanchez del Aguila. Under the terms of the protocol the Cuban commissioners must meet at Havana and the Porto Rican commissioners at San Juan within thirty days from the signing of the protocol, which was on August 12.

The primary conventions in the different counties are falling into line in their instructions for the renomination of Congressman Geo. M. Davidson, in spite of his desire to retire, and he will be put up for the second time. When the convention is in progress, however he will be fighting the hay fever at Marquette, Mich., with his political interests in the hands of his lieutenants. There is considerable curiosity concerning the plan of campaign that Davidson will pursue in his congressional race. Mr. Gilbert, the Democratic nominee, is a splendid mixer and fine stumpster, and he has announced his intention of challenging Davidson to debates in every county in the district. Mr. Davidson lays no claim to being a public orator, neither does he believe that there is much virtue in the political speech. He is a great man to make a house-to-house canvass, and in his former races, both in his county and in the district, he met more men personally than any other candidate of his day. Still, if Mr. Gilbert persists in his challenges for a debate and follows Davidson over the district in this way, he will be forced to meet him somewhere.

The Rev. W. R. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that state, was attacked by cholera morbus. He says: "By chance I happened to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I think it was the means of saving my life. It relieved me at once." For sale by R. E. McRoberts. 1m

Interesting Letter.
Mountain, Long Island.
Sunday, Aug 14th 1898
My Dear Dear Mother:

Your last two letters received dated July 18th and Aug. 2nd respectively. The one dated 18th reached me at Camp-Hamilton, near Santiago de Cuba a few days before we left. I had just written you and mailed the letter before yours came. Received the one dated Aug. 2nd just starting to write you when it came. I am so glad to know my dear friends in dear old Lancaster take so much interest in me and are glad to know I am living. The battle of Sibony where you thought I was killed was only a little skirmish between the Rough Riders, 10th Regulars and a small detachment of Spanish troops in which the Spanish were forced to retreat, loss estimated between 150 and 200; our loss killed and about 30 wounded. No, mother I never did feel that I would be killed, I don't know why. That battle of July 15th will ever be remembered by me, Artillery shells of all kinds, whistling around us for nine hours. Imagine the nervous strain for so long; men falling on the right and left of it was horrible. I saw one man wounded the first next to me on my left, before the battle had been in progress five minutes. The last words he had said, "stay with me and give them hell Dunlap." He enlisted when I did. A New York man fell on top of him and was killed and behind me in ten seconds two more wounded and have died in hospital since. I tell you they were just wounded then down. I can agree with Jno. Sherman, when he said, "War is hell." Well, mother, peace is declared, I am happy to know it, and now since it is all over, of course I am glad. I went to Cuba and took a part in the only battle of the war; but I can say unto you one thousand dollars could not buy me to spend another seven weeks in Cuba. It is said to be the most fertile spot on earth. Well I guess it is for fever and diseases of all descriptions.

Any one well knows how chills and fever affects one situated under the best of circumstances, but imagine what it is situated in a hostile country, sleeping on the wet ground, exposed in every way imaginable, and nothing to eat but hard-tack, fat bacon and black coffee. As long as one is well he can eat most anything and never say a word, but the above mentioned delicacies are a little more than a sick man can stand. Actually I have seen men laying in this camp now who look like they are almost starved to death, been sick so long, and cannot stand what they have to eat. I went six days on one stretch without eating anything, and since that time the chills and fever have struck me about one day out of every four, until I went on board the ship last Sunday, and since then I missed until yesterday. I was just beginning to think they had left me for good, when they struck me again, and I was awfully sick all day. Well, we got orders last Friday, Aug. 5th, just before dark, to pack up, ready to leave on the next morning, and a happy lot of boys they all were, except about 75 out of the 6th cav. who were in the hospital, condemned for the hospital ship, which will go to Key West Harbor, in about ten days. Well, we started Saturday about one p.m., marched two miles and took a train for Santiago, that train, I wished you had seen it—a passenger train too. The coaches will not compare with a freight caboose, but it felt awfully good to ride anyway, or in anything. The poor cavalry groomed and cared for three horses for years, and when the war did come start them walking, and then brought us back here to our horses again, but we are satisfied with anything since they have taken pity on us enough to send us back to the dear old U. S. We arrived in Santiago late in the afternoon, then I was detailed from headquarters of regiment to go back to camp, horse back, as a guide for six mule teams to get baggage left behind. Well, it rained all the way and I got soaking wet, got back to Santiago some time after dark, and only just in time to catch the last cargo of stuff going out to the ship. We pulled off the noted harbor of Santiago at 4 p.m., Sunday, Aug. 7th, bands playing and cheers coming from the many naval and transport ships lying in the harbor. We passed the Merrimack sunk at the mouth of the harbor by Hobson. It was quite a curiosity to us, Moro Castle and all the fortifications also.

The Moro Castle is almost a complete wreck, and all the fortifications bear evidence of the awful cannonade fire that was so long directed at them. Well, we bid, which I hope was an everlasting farewell to Santiago and Cuba, and commenced our long 1,900 mile trip, to this place, arriving last evening, the 18th, about dark, and went into quarantine, although we had no yellow fever aboard. The ship was full of chills and fever patients. It was too late to examine us last night, so we had to wait until this morning. We got orders about noon, and a large crowd of people was at the landing to meet us, and gave us a hearty welcome. Many a poor soldier's heart felt rather happy to know we were on United States soil again, and such a send off was rather more than we had expected, as we have been isolated so long. It seems strange to see ladies and children, especially, give us such a round of welcome—one old fat lady amused me. She was dressed handsomely, and apparently belonged to the aristocrats, but she became so enthusiastic she rushed and grabbed me shaking hands, with a "God bless you, welcome home," as we marched by. It was rather a touching scene, and with every one it was a good, sound, heartfelt welcome. We are now in quarantine camp, will be here five days. Everything is very convenient here. Plank floors in tents, grass all cut, camp made in every way, and when we walked into it, whether you know it or not, that is a luxury seldom enjoyed by soldiers. The boys are beginning to look better already, I believe, notwithstanding there is some typhoid fever in adjoining camp, but I don't think it is spreading to amount to much.

A few words about Santiago, and I must close for this time. It is a very ancient looking town, walls of the houses straight up and down, and all molder, no adornments on the cornice, very small windows and a great many of them, with iron bars over them, looking like prisons. The streets look about like our alleys, side walks like bridge paths, and filthy is not the word. No sewerage at all. The people throw slops out on the street, (then call Spain a civilized people) look more like a place where cannibals live. Half of the people are nude, and all the children are. Occasionally you see signs of what was at one time elegance, but everything has gone to rack. Walk three squares and you will see half a dozen coffins being carried to their last resting place. You cannot imagine my feelings to hear of Willie Waters death. I am so sorry. I always thought so much of Will. Tell Louis Landram I appreciate his remembrance of me, and sometime as soon as I feel strong enough I will write him something of interest for his paper in regard to the battle, &c. I have kept a diary of my trip—that is the principal events. Oh! how I wish I was at home to see everybody once more. Good-bye. Love to everybody inquiring. Tell Robert and Kathleen I hope to be home soon to see them. Your Son,
W. O. DUNLAP.

MT. HEBRON
Born, to the wife of Wm. Rogers, on the 17th inst., a girl.
Several of the youngsters of this neighborhood are attending the camp meeting at the Forks of Sugar Creek.
Miss Ola Scott, of Burgin, is visiting her grandmother and grand father, Mr. and Mrs. W. D. Scott. Mrs. C. D. Pascoe and little son, of Jellico, Tennessee, are visiting her mother, Mrs. M. A. Ford. Mr. Timothy Ford is on the sick list this week.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—G. J. Boggs, Staunton, Glimer Co., W. Va. For sale by R. E. H. D. Aldridge bought of J. S. Johnson 25 sheep at \$3.75 per head.
A number of young folks from this community attended Church at Mt. Olivet Sunday evening.

Mrs. W. M. Kuykendall is quite sick at this writing. Lee Van Arsdall, of Harrodsburg, visited Mr. and Mrs. H. Bogie. Oliver Boner attended the fair at Shelbyville, Thursday. Miss Maud Pope, of Boyle, visited Miss Lizzie Simpson. Mr. and Mrs. Andrew Rice, spent last week at Crab Orchard. Miss Maggie Hackley, of Georgetown, visiting her uncle, J. C. Boner. Ed Close, of Louisville, visited Mr. and Mrs. Reuben Naylor last week. Miss Maud Boner, of Jessamine, is visiting her father, Oak Boner. Mr. and Mrs. Biff Floyd and daughter, of Hustonville, visited their relatives, Mr. and Mrs. T. I. Herring and Mr. and Mrs. T. T. Pollard. A crowd of young people invaded the residence of Mr. H. D. Aldridge, Thursday evening, bringing with them a nice treat of watermelons which was very much enjoyed. Mrs. N. H. Bogie visited in Lexington last week, and returned home accompanied by Mrs. Emily Jones and daughter, Miss Caroline. Misses Susie Sutton, Katie West, Anna Pollard, Georgia Henry and Mary Kuykendall, and Hugh Kuykendall, attended a picnic at Crab Orchard, Wednesday. Rev. J. C. May, of Georgia, visited Rev. W. M. Kuykendall, and delivered an excellent sermon at the Fork, Sunday. Miss Georgia Henry, of Lancaster, returned home Monday, after a pleasant visit to her friend Miss Sallie Herring. O. S. Williams and son, Henry, or Burgin, visited the family of H. D. Aldridge, Tuesday. Prof. E. W. Elrod, of Shelbyville, was here last week in the interest of the Shelbyville College. He procured a number of pupils for his school.

We have used Chamberlain's Cough Remedy in our home for many years and bear cheerful testimony to its value as a medicine which should be in every family. In coughs and colds we found it to be efficacious and in croup and whooping cough in children we deem it indispensable.—H. P. Ritter, 4127 Fairfax ave., St. Louis, Mo. For sale by R. E. Mason Pullins sold a field of 20 acres of corn to Tom Hendren, and is feeding it down to hogs for him at \$1.25 per barrel.

Judge Wm. Totten, of Lancaster, visited his daughter, Mrs. Mason Pullins, last Sunday. Mrs. Jas. Bustle, of Rockcastle, is visiting her daughter, Mrs. W. B. Adams. W. B. Adams is going to North Carolina, next week, on a trading expedition.

There is a move on foot to have the county road leading from this place to Walker's school house put out of the branch, something that should have been done years ago. It is the roughest road in the county, anybody that ever traveled it will say so. The people that live in this vicinity can't get to Lancaster without going four or five miles out of the way, unless they go horse back or a foot, this fact has been demonstrated this court, one of our neighbors is serving on the jury, he has a nice horse and buggy, but he prefers riding a colt that is hardly bridle-wise. He says he can make better time and is not jolted to death when he gets there. It is impossible for the children to get to school without walking in the branch all the way, and it is nonsense for the farmers to talk about hauling anything like a load over the road. Not only this, it is dangerous to ride over it,—we know from our own knowledge, of one lady and two or three different men to have their horses fall and throw them off, one of the men got a leg broke.

PAINT LICK.
Miss Mattie Thompson has returned home after a weeks visit to Miss Mary Lear.
Misses Lymia D'Hay and Ora Alexander, left for Cloverport, Ky., Friday night. Their many friends escorted them to the midnight train. There were many broken hearts left to mourn for their departure, but one pleasant thought is they will meet again.

Mrs. E. H. Ballard gave a party to the Ramsey visitors, Misses D'Hay and Alexander, last Thursday evening, which was certainly enjoyable to everyone present. The beautiful house was brilliantly lighted, and the yard decorated with Japanese lanterns. About 11:30 the crowd assembled in the dining room where they were served to an elegant supper. It is not very often that Paint Lick is honored by such a grand event. All were beautifully entertained until about 1:30, and then the Paint Lick band came in, and the square dances were indulged in the rest of the evening. No one ever enjoyed themselves more than they did that night.
